MAGIC WANDS

PORTABLE SHRINK PACKAGING SYSTEM

Model MWS-C-24" Long Seal Bar Table Top System

Model MWSBT-C-24 With Optional Adjustable
Legs, Casters and Label Dispenser

Features of the Magic Wand

- Standard 115 Volt Power Supply
- Fully Portable
- Sealing Wand With Power Pack
- Neoprene And Silicone Sealing Pads
- Film Dispenser With Separator Bar
- Hole Punch
- Service Kit

Specifications and Options

- Power Requirement: **115 Volt, 10 Amps, 60 Cycles
Single Phase Circuit With Ground**
- Wattage: **1,150 Watts**
- Working Height: **Table Top**
- Weight: **(Wand and Power Pack Only)**
- Constant Heat: **7 lbs. (3.17 kg)**
 - Impulse Heat: **14 lbs. (6.35 kg)**
 - Manual Impulse Heat: **9 lbs. (4.08 kg)**
- Warranty: **Ninety Days On Parts**

- Options:**
- 220 Volt Power Supply
 - HG-966 Hot Air Gun
 - HG-115V Hot Air Gun
 - HG-302A 220 Volt Heavy Duty Master Hot Air Gun
 - 24" Sealing Block
 - MW Alum. Tables In 2 Sizes
 - 28" D, 44" W, 29" H
 - 43" D, 44" W, 29" H
 - Adj. Height Legs For Table 29" To 38" Overall Height

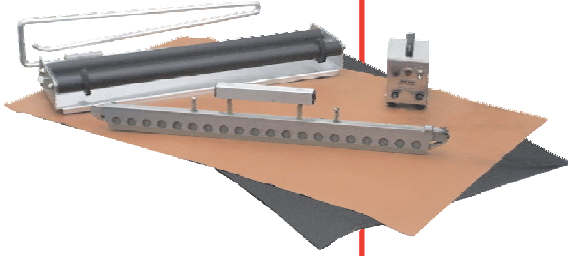

YOUR BEST CHOICE FOR ALL YOUR WRAPPING NEEDS

SUPERMARKET EQUIPMENT

Available Magic Wand Systems

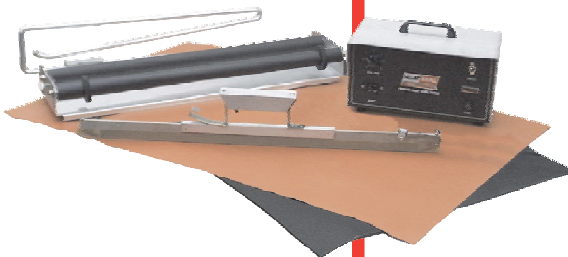

Model MWS-C: Constant Heat

The sealing wire remains heated as long as the unit remains on. The wire is protected by an aluminum guard to protect the operator. The user must press down on the spring loaded sealing arm in order to cut and seal the film being used.

Available sizes: **18", 24", 36"**

Model MWS-I: Timed Impulse Heat

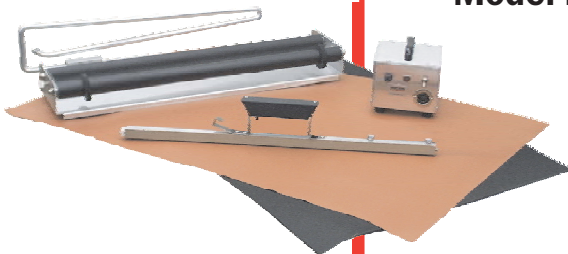

The sealing wire is activated by a push button switch which heats the wire to cut and seal the film being used. The heating cycle is determined by adjusting the seal timer on the power pack. Following one complete cycle, the sealing wire will cool until triggered again.

This unit provides for greater sealing consistency as the timer controls the exact heat to the sealing wire during every heating cycle.

Available sizes: **18", 24", 36"**

Model MWS-M: Manual Impulse Heat

The same system as the **MWS-I** except the operator controls the length of the heating cycle by depressing and holding the button switch. The unit is not automatically cycled off but begins the cool down cycle as soon as the button is released.

Available sizes: **18", 24"**
